H9A

H9P3E

Peltor over the head Earmuff - H9A
NRR 25 db
H9A (Replaces 3M 1425 / 1435 / 1440)
Lightweight, comfortable and effective
For noise levels up to 98 dBA NRR 25 dB
Dual low pressure bands improve comfort
Broad foam cushions provide low surface pressure

Peltor Earmuff for Hardhat - H9P3E
NRR 23db
H9P3E - (Replaces 3M 1450)
Lightweight, comfortable and effective
For noise levels up to 98 dBA NRR 23 dB
Dual low pressure bands improve comfort
Broad foam cushions provide low surface pressure

3212101

H10B

- + Each non invasive ear pod swivels for better comfort and fit
- + No roll down required - No dirt transfer from fingers to plug
- + Reusable
- + Dermatological safe earplugs
- + Band fits comfortably round the neck when not in use

Caboflex™ E-A-RFlex™ SNR= 23dB

Patented Twin-Cup™ design has soft, foam-filled earmuff cushions. Behind the head design allows for easy use with hard hats. Liquid/foam filled earmuff cushions. Color-coding for compliance sighting. Noise Reduction Rating (NRR)*: 29 dB.

Sd200

The 3M SD200 Sound level meter is a compact, lightweight sound level meter designed to accurately measure workplace noise levels.

- *Simple user friendly interface
- *Rechargeable battery - up to 50 hours between charges
- *User selectable LED Alert screen provides visual reference of sound levels with green, yellow and/or red LED's
- *Offers an integration feature that computes the average sound pressure level
